Miller TechLine™

Temporary Horizontal Lifeline System Kits

Introducing premium temporary horizontal rope lifeline (HLL) systems for **one or two workers**. The **abrasion-resistant, low-stretch lifeline** provides **ultimate durability** for tough environments while reducing fall clearance requirements. An **in-line system shock absorber** reduces forces while **O-ring connections** allow for ease of mobility. The systems are **quick and easy to install, lightweight and portable**.

Features and Benefits:

- Low-stretch rope lifeline for better performance/less deflection
- Fluorescent green lifeline for high visibility
- Kit configurations to accommodate 1 or 2 workers
- Lightweight kit; easy to carry
- Quick and easy to install for increased productivity
- Cross-arm anchorage straps for easy installation
- Connecting O-rings for greater mobility
- Shock absorber pack reduces fall arrest forces
- Designed so anchorage points only need to be rated for 5,000 lbs.
- Rope lifeline adjuster to accommodate required length
- Meets applicable OSHA, ANSI and CSA requirements
- Waterproof bucket for safe storage

Kit configurations to accommodate 1 or 2 workers

HLLR2/60FT

Kits contain:

- Durable, low-stretch 5/8-in. fluorescent green rope lifeline
- Lifeline adjuster prevents overtensioning of system
- Two heavy-duty cross-arm anchorage straps
- Shock absorber pack
(included in two worker kits, ONLY)
- Connecting O-rings
(one O-ring included in single worker kits; two O-rings included in two worker kits)
- Waterproof bucket
